About Canadian Hemp Trade Alliance (CHTA)/ Alliance Commerciale Canadienne du Chanvre (ACCC)

To tap into the plant's exciting potential for Canada, the industry recognised the need for a common national front. The CHTA/ACCC was formed in 2003: we are a non-profit national group of hemp processors, marketers, farmers and information specialists. Hemp is our business.

Over 2003-2004, CHTA/ACCC is committed to establishing a national network that will involve all regions and participants on each level of the value chain. The CHTA's long term vision is to aid the growth of both hemp fibre and seed sectors.
